Wireless Outdoor Sensor Solutions

When it comes to outdoor
protection, our sensors
go to extremes!

Want a Great Upsell Opportunity?

Take a Look Outside.

Robust, All-Weather Outdoor Security
Solutions for Your Customers...

Today, security dealers can offer the protection of outdoor areas and valuable items without any hassle or high labor costs—with the simple installation of the 5800 Series wireless sensors.

The 58160D is a wireless magnetic contact designed for harsh outdoor environments and is an integral part of our connected home and building solutions.

The 5800PIR-OD2 is an ideal solution for outdoor sensing needs in difficult-to-wire locations—avoiding the costs and time to trench hardwired solutions.

58160D

OUTDOOR WIRELESS CONTACT

- Ideal for gates, sheds, fences, barns, detached garages and more
- Easy installation with a wide magnetic gap
- Built-in reed switch and optional terminals for wiring external devices
- Weather-proof (NEMA 4X rated) and water-resistant housing to deliver reliable performance in harsh climates
- Withstands temperatures as low as -40 °F (-40 °C)
- Paintable* to match and blend in with a surface
- Long-life AA lithium batteries that your customers can easily change themselves
- Compatible with Resideo Total Connect® Remote Services
- Compatible with VISTA® and ProSeries#

*see installation instructions for recommended paints

#VISTA requires the use of a 5800 receiver and ProSeries requires the use of the PROTAKEOVER module

5800PIR-OD2

OUTDOOR WIRELESS MOTION DETECTOR

- Superior protection for pool areas, driveways, boats, trailers, car lots, roof tops, cellular sites, and more
- Easy installation --no trenching, excavating or subcontracting
- Provides immunity to false alarm sources like pets, small animals and other outdoor disturbances
- Range adjustable up to 40 ft (12 m) with a 90° adjustable pattern
- Weather-proof (IP54 rated) and water-resistant housing to deliver reliable performance in harsh climates
- Withstands temperatures as low as -40 °F (-40 °C)
- Dual passive infrared design --both PIRs must be tripped to declare an alarm
- Compatible with Resideo Total Connect® Remote Services
- Compatible with VISTA® and ProSeries®

Connect to Opportunity

Resideo Total Connect® Remote Services

These wireless outdoor sensors work with the Resideo Total Connect 2.0 App to alert end-users when suspicious activity is detected. End-users can be notified via push notifications, emails and text messages to protect outdoor property and valuables. It's also a great way to provide you with more RMR!
