

AlarmNet 360™ Business Management Cloud Platform

Your Business. Simplified.

AlarmNet 360 is a powerful business management cloud platform that will simplify and transform your operations, driving increased efficiency and productivity, delivering valuable insights into your accounts to fuel growth, and lowering lifecycle costs. It is a virtual game changer.

CUSTOMER CREATION: SIMPLIFIED

Simple to Learn, Easy to Use

Intuitive navigation and custom templates make programming virtually effortless and error free.

Best in the Industry

Speeds and Simplifies Installations*

Program the system onsite or remotely from any computer or mobile device—even before the installation!

Industry Exclusive

Provides Flexibility and Simplicity

There's no software, databases or servers for you to install or maintain—ever.

CUSTOMER GROWTH: SIMPLIFIED

Grow Your Customer Base

Use daily data from AlarmNet 360™ Insights. Our interactive dashboard can create targeted, customized offers for NEW customers.

Reduce Attrition

Use data to identify risk areas, and purchase behavior to develop targeted offers to retain accounts.

Identify New Opportunities for Current Customers

Utilize enhanced customer analytics to drive up-sell and additional RMR opportunities.

CUSTOMER SERVICE: SIMPLIFIED

Improves Support

Troubleshoot and make system changes onsite or remotely, which helps keep customers satisfied and costs low.

Streamlines System Health Checks

Remotely check the control panel, get sensor status and upload event logs—eliminating a truck roll!

Speeds System Replacement

Rapid recover enables 100% transfer of all system settings, reducing the time and hassle of re-programming panels.*
