

Honeywell Home

Your Home...

Safer. Smarter. Connected.

Honeywell Home can actually bring your home to life—making it safer, smarter, more comfortable and energy efficient than you’ve ever dreamed. In fact, more homes in North America rely on Honeywell Home security and connected home solutions than those of any other manufacturer.

Isn’t it time you got connected? Ask your security professional how you can make the most of your home with Honeywell Home.

In Touch with **Your** Lifestyle.

LYNX Touch 5210 All-in-One Home Control System

Honeywell Home lifestyle-enhancing LYNX Touch all-in-one home control system lets you control security and home automation functions, view video and more—all from one brilliant, full-color touchscreen. It can even keep you connected to your family and home whether you're across the street or across the world. No other system can touch it!

Welcome to your **connected home.**

Home and Energy Management

You can control and automate your thermostats, garage doors, lights, locks and water valves directly at the LYNX Touch display, around your home via Wi-Fi® enabled devices or remotely when using Resideo Total Connect Remote Services. You can even set scenes or randomize lights for a lived-in look while you're away!

Mobility at Home

Our LYNX Connect App² lets you use your Wi-Fi enabled iOS or Android™ devices for easy, on-premises system control and video viewing.

²Apps available for a nominal fee in the Apple® iTunes® App Store and in the Google Play Store.

Sunrise/Sunset

With this convenient feature, your Z-Wave® enabled devices can respond to sunrise/sunset times. For example, you can have your outdoor lights automatically turn on at dusk and off at dawn—whatever the season. It even adjusts for daylight savings!

24/7 Monitoring

Your home can be monitored by security professionals 24 hours a day, 7 days a week to ensure a quick response in the event of an alarm, fire or other emergency.

Simply **Brilliant!**

Brilliant Full-Color Touchscreen

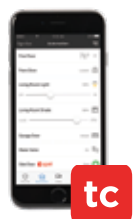

- Crystal-clear, full-color 4.3" display simplifies operation with graphics and menu-driven prompts

- Icons and words are large and easy to read
- Two dedicated keys for easy access to the home screen and emergency functions

Remote Control from Anywhere

- With Total Connect you can control your security system and home automation functions, view live video and receive email and video notifications anywhere in the world on mobile devices
- Get location-based weather, traffic and news delivered right to the touchscreen
- Get tornado alerts delivered automatically to the touchscreen based on your zip/postal code

Temperature available in Fahrenheit or Celsius.

Garage Door Control

Control your garage door⁴ and know if it is open or closed right from the touchscreen, on your mobile devices or remotely with Total Connect. You can close the door if it is left open accidentally, schedule it to close after a specified period of time or at a certain time every night. You can even arm the system when the garage door is open—helping to avoid false alarms.

⁴Additional equipment required. Not compatible with certain garage doors and garage door openers. Garage door control must have working entrapment protection. Contact your security professional for details.

Two-Way Voice

The optional two-way voice feature lets central station operators listen in and talk to you when an alarm signal is received³—ensuring that the proper response personnel can be dispatched to your home should the need arise.

³Excluding fire or carbon monoxide alarms.

Night Stay/Arming

In for the night? With a press of the touchscreen, this mode arms preselected interior sensors—such as in a basement or on the main floor—while letting you move freely in areas like hallways or upper floors.

You're in Control

Convenient wireless remotes provide simple, single-button control of your security system, lights, garage doors and more.

Built-in Alarm Sounder

Full Voice Response

System status and zone descriptions are clearly spoken.
