

Safety You Can See and Hear

Honeywell Home SiXCOMBO is the industry's first two-way, professionally monitored, wireless, combination Smoke/Heat and Carbon Monoxide (CO) detector. With the “One-Go-All-Go” feature enabled, if one sensor detects danger and begins to sound, all sensors in the system will sound. The 24/7 central station is automatically alerted so help arrives quickly.

Maximized Protection

- The four sensing elements significantly improve Smoke and CO detection, while also helping to reduce false alarms
- SiX™ Two-Way Wireless Technology employs true, 128-bit AES encryption for a high level of security
- With the “One-Go-All-Go” feature enabled, if one sensor detects smoke/heat or CO conditions, all sensors in the system will sound
- Automatic performance check every 200 seconds ensures continued protection

Loud and Clear

- Multi-lingual voice annunciation in English or Spanish with emergency notifications that include “Warning, Smoke, Evacuate” and “Warning, Carbon Monoxide, Move to Fresh Air”

Fast and Easy Installation

- Dual capabilities in a single device—reducing installation time and cost
- Battery pull-tab, auto-enrollment, and no-touch adjust help speed installation and reduce errors
- Can be configured remotely as needed, minimizing on-site visits

Always on the Lookout

- 24/7 professionally monitored life safety protection
- The 360° viewable alarm with status LEDs show status alerts and Smoke or CO detection

Long Term Performance

- With a 10-year life span and an end-of-life notification, your customers can rest easy knowing they are protected
