Total Connect Remote Services

A Healthy Connection

Independent living solutions that keep seniors safe and caregivers connected.

Live Well. Stay Connected.

Resideo Total Connect Remote Services helps you maintain a connection to elderly relatives who live independently, but may require extra care and attention in their own homes. Check in on your loved ones and tap into peace of mind any time – all from an easy-to-use app on your iPhone®, iPad®, Android™ device or website. It's the best way to keep caregivers connected.

- See, hear and speak to nurses or home health aides at the premises, and take a screen shot of video activity – all from the same screen
- Know at a glance if a senior loved one has left the premises or pressed a panic pendant to summon emergency help
- Speak to caretakers or your elderly loved ones through our app and let them know you are watching
- Get push notifications, email and video alerts when important events occur
- No activity notifications give alerts when there has been no sensor activity or if the alarm system has not been set for a period of time
- Monitor hallways, staircases and doors with live, look-in video
- Be notified if a bathtub or toilet overflows or if extreme temperature has been sensed
- Scenes and schedules keep seniors safe and comfortable without having to remember to adjust the thermostats, turn lights on or off or lock the doors at night
