## Intelligent Comfort Control for the Connected Home

### Smart Alerts

The Thermostats are ideal for customers who want the freedom to stay in touch with their connected home systems to maximize savings, energy and comfort. It can alert them of extreme conditions and maintenance needs, giving them renewed confidence in their thermostat system.

### THERMOSTATS ARE GREAT FOR:

- Families with busy, unpredictable schedules
- Tech-savvy customers who use apps
- Customers who don't program their thermostats and aren't saving as much as they could
- Environmentally conscious homeowners who want to maximize energy savings
- Customers who want to integrate Connected Home systems

## Simple connectivity. Control from anywhere.

### Connects To Existing Wi-Fi Network

Honeywell Home Smart thermostats connect to the home's wireless network – no need for additional gateways or equipment.

### Intuitive Operation

Plain-language menus and commands make the Honeywell Home Smart thermostats simple to use, minimizing customer callbacks.

### A SMART THERMOSTAT IS GREAT FOR:

- Homeowners who travel and want to make sure their HVAC system is operating as expected.
- Customers who want to adjust the heat or A/C in their vacation home before they arrive.
- Monitoring temperature in a rental property.

## Advanced solutions for complex comfort challenges.

### Reliable, Secure Connection

The Honeywell Home RedLINK technology is a proprietary wireless network, facilitating a strong signal and secure, uninterrupted connection.

### Bigger Revenue Opportunities

RedLINK helps you offer an integrated solution, which provides greater customer benefits while boosting your bottom line.

### Ability To Differentiate

RedLINK solutions enable you to showcase your expertise and give customers value they can't get anywhere else.

### REDLINK IS GREAT FOR:

- A multi-level home with temperature swings between the top and bottom floors.
- Homeowners with seasonal allergies and homes with pets, because RedLINK can link to and control indoor air quality products, such as wholehouse air cleaners.
- Homes with inconsistent humidity levels.
