

## VIDEO MONITORING

Remotely look in on your business, employees, property and more over a highly secure Internet connection with **Honeywell Total Connect™**

**Video Solutions.** You can also receive video notification or pictures of activities when they occur – such as an employee entering a restricted area – on your smartphone, laptop or any web-enabled device.

With Total Connect Remote Services you can also access and operate your security system.

# Automation, Energy Management and Video Monitoring for Small Businesses

Enter your business and have the lights and temperature set perfectly for your arrival? Get a video alert when your employee gets to work or leaves early? Unlock a door or control your security system via your smartphone? You bet!

Whether you're looking to save money, or conserve energy, Honeywell has a Connected Business solution that can work with your budget and grow with your changing needs. Ask your security or custom electronics professional for more details.

Control systems and programmable thermostats can reduce energy costs by up to 15%.<sup>1</sup>

## BASIC CONNECTED SMALL BUSINESS SOLUTION

Program your thermostat to automatically adjust and have your lights turn on or off automatically when you arm and disarm your security system. You also have the option to disarm the system outside of your business when using Honeywell Total Connect™ Remote Services or a wireless keyfob.

## PREMIUM CONNECTED SMALL BUSINESS SOLUTIONS

**Honeywell's Tuxedo Touch™** offers customizable energy management, security, video monitoring and business control via a dynamic, 7" color touchscreen. It's a brilliant addition to your business – with or without a security system!

- Control of Z-Wave® enabled thermostats, lighting, locks and shades to increase comfort and save money and energy
- Control the system through your smartphone, PC, web-enabled TV or compatible wireless mobile device
- See who's at the front door of your office before you let them in. Video monitoring right at the keypad.
- Digital picture frame and video player can be used to play commercials, advertise sales and post employee announcements

**Honeywell's LYNX Touch** offers security built right into the keypad, energy management, and control of thermostats, lighting, door locks and more – all from one brilliant, full-color touchscreen.

- Control of Z-Wave® enabled thermostats, lighting, locks and shades
- Control your security system, lighting, locks and thermostats via your smartphone or any web-enabled device when used with Total Connect Remote Services. LYNX also offers an optional Wi-Fi®-enabled Android™ Mobile Internet Device that functions as a portable system
- Receive local weather, traffic and news right at the touchscreen
