

Honeywell Home

Welcome to Your Connected Home

Enjoy full-scale home security solutions
that give you peace of mind.

Bring Your Home to Life

The Honeywell Home Tuxedo Touch functions as an advanced home security and automation controller, video camera or recorder, and voice-enabled system.

Tuxedo Touch will make your home more enjoyable and your life easier than you've ever dreamed possible. Welcome to your connected home.

You can enjoy easy, fingertip control of Z-Wave® enabled thermostats, lighting and locks—even view and record video—with the smart, 7" full-color touchscreen. Tuxedo Touch can also respond to simple spoken commands—literally giving your home a voice and enabling convenient, hands-free operation. Through Resideo Total Connect Remote Service, you can even control your system on smartphones, tablets and other compatible devices.

Talk about Convenience

You'll know how to use the Tuxedo Touch controller the first time you see it. It's intuitive, easy to learn and easy to use whether you're performing security and home control functions, viewing and recording video, or using voice commands.

Security Made Simple

Tuxedo Touch is ideal for users of any age and has easy to view icons and words that fit perfectly on the crystal clear screen—doubling as a digital picture frame and also, providing you with voice annunciation of alarm conditions*.

On-Premises Video Viewing and Recording

Use the high-resolution 7" touchscreen or other compatible devices to view up to four indoor or outdoor IP cameras around your home. Plus, you can record up to two-minute videos on an SD card, getting visual verification of an alarm or system activity.

**Voice annunciation option available in English language only.*

Give Your Home a Voice

Simply say **Hello Tuxedo** to bring your device to life and benefit from handsfree home control. Once activated, it can instantly perform a range of tasks, such as arming your security system, creating scenes, and controlling lights, thermostats, locks and more.

Built-in commands:

- Leaving the House
- Returning Home
- Wake Up
- Bedtime
- Evening Time
- Cameras

You can personally configure the built-in commands to suit your lifestyle and needs. Your mornings can run more smoothly by saying **Wake Up** and having your shades raise and the heat turned up to the perfect temperature. Ready to turn in for the night? Just say **Bedtime** to arm your security system, turn off your lights, lock your doors and set back your thermostats. Say hello to convenience and peace of mind.

Enhanced Server Options for a Smart Home

Imagine and Connect

Think you forgot to turn off your outside lights when you're downstairs watching a movie? Just reach for your smartphone and check. You can keep an eye on your kids when they're at home through Internet TV from the comfort of your couch. You can also have weather reports delivered right to the screen. The possibilities are endless.

On-Premises Control

The built-in web server empowers you to locally control Tuxedo Touch anywhere in your home on smartphones, smart TV, tablets or any web-enabled device using your home's Wi-Fi® network*.

Audio/Music

Integrated audio/music control of streaming services such as Pandora, SiriusXM®, Amazon, and more via Denon® HEOS Wi-Fi systems.

Home Control and Energy Management

Savings, Comfort and Convenience

Thermostats*

Time-of-day temperature changes are available so you can arrive home from work to your desired settings. Boost your energy cost-savings with customized scenes compatible with your Z-Wave enabled thermostats—featuring automatic adjustments every time you arm or disarm your security system**.

Locks

With Tuxedo Touch you can lock and unlock garage, back and front doors remotely or locally, using the keypad on your door lock. Plus, you can create schedules and scenes to lock and unlock your doors automatically when arming and disarming the system.

Lighting

Automated household lighting is simple with Tuxedo Touch. Z-Wave enabled indoor and outdoor lights turn on or off when your arm or disarm your security system—giving you the possibility to create scenes that enhance your home comfort, for when you're going to bed or watching a movie, and more. For added security, you can remotely create the perception that someone is home, even when the household is empty.

Shades

Avoid needlessly heating your home and extra expenses by programming your Z-Wave enabled shades to lower or rise at specific times of the day.

Flood Detection

Flood detection and water shut-off valve to alleviate costly flood damage.

*Temperature available in Fahrenheit and Celsius.

**When used with the Honeywell Home ZWSTAT Thermostat.

Set the Scene

Scene Scheduling

Tuxedo Touch makes it easy to set scenes that occur on a regular basis through Z-Wave technology—enhancing your comfort and helping you make the most out of your home. You can unlock the front door for a babysitter or housekeeper at the same time every week, set the lights to turn off when you leave your home in the morning and turn on before you arrive home at night.

Sunrise/Sunset

Not only can you set scenes to occur at specified times, you can even have them respond to the sun. Your outdoor lights can turn on at sunset and off at sunrise. Sunrise/sunset times update automatically and adjust for daylight savings.

Event-Driven Scene Activation

For event-driven scene settings, Tuxedo Touch can easily connect to Honeywell Home VISTA®—the most reliable security controller in the industry. For example, if your child wakes up at night and enters a dark hallway, the motion sensor can trip a Z-Wave light to come on automatically and safeguard them against trips and falls.

Total Connect Remote Services

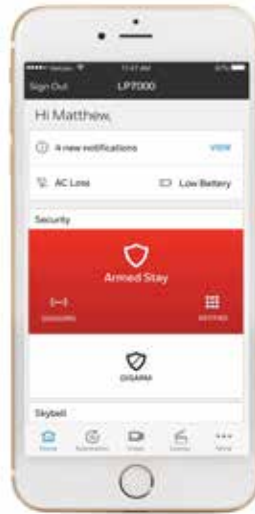

Wherever you are, you can control your system and receive important alerts with Total Connect on your personal smart device.

Control and Manage Your System from Almost Anywhere

With Total Connect, you can:

- Control your Z-Wave enabled lighting, locks, thermostats and shades
- Receive notifications of events in and around your home via email, text messages or video alerts (e.g., a flood or delivery arrival)
- Always know if your children have arrived home on time—and unlock the door for them remotely if they forget their keys
- Know if floods or extreme temperatures have been detected
- Know if valuable objects have been moved

Remote Video Viewing

Stay informed with the option to view live video of the premises.

- Check up on your home, family, housekeepers, pets, contractors and more
- Keep a watchful eye over vulnerable areas like pools, backyards and front doors any time
- View up to six cameras at a time**
- Monitor your home in low-light or dark environments with indoor low-light cameras**
- Video camera surveillance and recording available via keypad interface or through your personal smart device

Unlock Your Home's Potential

Did your kids forget their keys again? Have a neighbor stopping by to drop off a package? Unlock the door remotely from the comfort of your office or anywhere—right from your wireless smart device.

**Total Connect cameras required.

Get in Touch with Crystal Clear Images

The vivid, 7" display brings your memories to life for an incredible photo and video viewing experience—supporting over 16 million colors. It lets you show off your treasured photos with the same glorious, real-life detail and vibrant colors as high quality prints.
