

The Connected Home and Business

Honeywell's Tuxedo Touch™ is a magnificent, 7" graphic touchscreen that functions as a home and business security and automation controller, VISTA™ keypad, camera viewer/recorder and digital picture frame—all in one easy-to-use interface.

No other product can touch it.

Bring Your Home to Life

- Manage energy costs with thermostat control
- Works with VISTA, the industry's most reliable security controller
- Control security, lights, locks and shades, view live video and more any time, anywhere on any compatible smart device with Honeywell Total Connect® Remote Services
- Control lighting for comfort, ambiance and security, with the ability to create a lived-in look while you're away
- Lock and unlock entrances, exits and garage doors

Security Made Simple

- Video surveillance and recording right on the keypad or remotely on everyday smart devices
- Integrated control of streaming audio services like Pandora®, SiriusXM® and Amazon® via Denon® HEOS® Wi-Fi® systems
- Environmental sensors and water shut-off valves help prevent and minimize costly damages from floods and leaks
- Convenient, hands-free voice control
- Digital picture frame feature for slideshows, video viewing, employee announcements and more
