

# VISTA21iPLTE Integrated Communications Solution

VISTA® Control Panel with built-in IP and optional LTE Radio

# VISTA21iPLTE Control Panel

## VISTA21iPLTE Control Panel with built-in IP and optional LTE radio

The Honeywell Home VISTA21iPLTE Control Panel delivers a full communications solution in one cabinet with the dialer and IP built-in and an optional LTE radio that snaps directly onto the board. The VISTA21iPLTE provides flexible communications options for any application while reducing installation time and costs.

The integrated IP makes it easy to serve a vast number of broadband communication users, while giving you an increased opportunity to grow RMR. The optional LTE radio enables dual path reporting to ensure a strong and reliable communication path to the central station. The primary communications path is selectable, offering the most convenient and cost-effective way to communicate based on the application.

- Ideal for residential or commercial applications where the Internet is the primary path of communication
- Optional LTE-21V radio snaps directly onto the VISTA board saving installation time and cost
- Simple radio programming via a 6160 Alpha keypad through AlarmNet® Direct without having to use a 7720PLLS programmer
- V21SIALTE SIA version that meets ANSI/CP-01 false alarm reduction standards
- V21LTEPCB and V21SIALTEPCB board only versions for a cost-effective way to do GSM field installed upgrades to LTE
- All the features and capabilities of a VISTA-20P control panel with the additional communication benefits

### Connect to Opportunity!

When used with Resideo Total Connect Remote Services – the groundbreaking solution that lets your customers utilize smartphones, tablets and other mobile devices to stay connected to their homes and businesses – VISTA21iPLTE's value-added services are unmatched. It is an ideal way for you to increase RMR and differentiate your business.
